Studio Bullitts : December 2002

Modern Modular is a new architecture and design firm specializing in pre-fabricated structures. Modern Modular's objective is to provide high quality, affordable homes to a broad audience by taking advantage of the latest in cost effective and reliable pre-fabricated construction technology. Modern Modular homes will be built energy efficient and environmentally sensitive, and are designed with a deep academic and anthropological understanding of community, group, family and individual interaction within the physical environment. Through an unsurpassed commitment to enduring modern design and style, Modern Modular seeks to allow the home building industry to meet the needs and desires of homeowners of the 21st century. Their new site is on line at <http://www.re4a.com/modern-modular>
