## Q-Loft

Architect: **Resolution: 4 Architecture**

Location: **New York, NY, USA**

Photos © **Floto + Warner**

Forming part of the Q-Loft designed for the Marvel Comics editor in chief, this artist's studio also accommodates a set of musical instruments and the owner's extensive collection of comic artifacts. The playful character of the space is emphasized by the installation of numerous built-in shelves made of acrylic that are internally lit for a dramatic and dynamic effect.
